District:

- **Lake Local Schools is proud to announce students achieving Honor Roll Status for the first marking period at Lake High Schools.** Students are deemed worthy of Honor Roll distinction with a 4.0 – 3.6 grade point average. Congratulations to each student! Your hard work does not go unnoticed. (*Honor roll attached*).

Lake High School:

- **Lake High School Gives Back to the Local Community!** LHS is once again a participating drop off point for The Community Christmas Coats for Kids and participating in a month long, student led food drive. The food and coats will benefit the local Stark County Community, with many families in Lake Township being positively affected through the effort of the high school. (*Press release attached*).

Lake Middle School:

- **Twice is Nice Consignments continues to benefit LMS Jr. Service Club!** The LMS Junior Service Club (JSC) is gearing up for a busy Adopt a Family season heading into December, as the main focus is serving families during November and December. Local families are sponsored and provided both gifts and food. Members of the community can help these efforts by patronizing Twice is Nice Consignments! The gently used, retro and vintage clothier is located at 1138 W. Maple Street, Suite D in Hartville. This great partnership with the JSC Club affords the organization 60% of consignments sold under the JSC account to fund their projects! Donate, purchase, and support!

Lake Elementary/Hartville Elementary:

- **The ART room joins the World Wide Web and Social Media!** Ever wonder what the budding artists are up to each day in LLSD? Parents and community members now have the opportunity to become engaged with the dynamics of art through the eyes and creations of the children, thanks to LE/HE Art teacher Miss Jamie Stegner. At www.facebook.com/pages/Miss-Stegners-ART-room, viewers can follow the vibrant colors, creations and candid photos of one of the 3 A's of Lake Local Schools – the Arts! From the elements of arts and principles of design in nature with 5th graders, to innovative building with the first graders, Facebook friends and followers will gain insight and appreciation for our young artists.
